RAD CLIENT REVEALED!

GXO has announced its partnership with AITX and RAD to provide efficient and cost-effective security solutions. RAD's technology is being implemented at 15 sites, set to expand by 20% in 2023.

Thomas Nelson, GXO's Senior Director of Security, spoke highly of the partnership with RAD. "Our partnership with RAD has introduced new solutions leveraging our logistics experience and RAD's cutting-edge robotics technology. Our goal is to continue enhancing safety and efficiency for our customers."

RAD's security robots are positioned to perform repetitive tasks in remote or hazardous locations, extending the reach of manned security personnel.

GOOGLE STOCK TUMBLES AFTER AI CHATBOT STUMBLES WITH QUESTION

Google's live-streamed presentation on Wednesday failed to detail integration plans for its new chatbot, Bard. The presentation was rushed due to Google's effort to catch up with Microsoft's already integrated ChatGPT functions in Bing search. However, the presentation was marred by an error in Bard's answer during the demo

AITX Esports heads to EON! RADD OG To Appear!

AITX Esports is headed to EON: Revelation, a super smash bros tournament, at the Palisades Mall. This will be an exciting event for gamers and tech enthusiasts alike. In addition to showcasing the latest in esports gaming, AITX will also be showcasing its latest product, the RADD OG security dog.

The RADD OG is a cutting-edge security solution that incorporates robotics and artificial intelligence technology. This versatile device can perform a wide range of tasks, including video surveillance and analytics, virtual barriers, and inventory security. The RADD OG is designed to be efficient, cost-effective, and dependable, making it the perfect solution for improving safety and security at large events like the EON: Revelation tournament.

In addition to its security capabilities, the RADD OG will also be available for taking press photos at the event.
