Multiple Dual
RAD ROSAs

Multiple ROSA-P
Configurations

Steve Reinharz @SteveReinharz · Feb 11

\$AITX Weekly video update featuring fresh photos from our big Healthcare install! Check it out... Lmk your thoughts... Spread the word... Be safe... Have a great weekend!

RAD LMW ROLLOUT

RAD has completed the installation of ROSA-P units at an acute care facility, which is the company's largest hospital deployment to date. The installation includes four ROSA-P configurations, each with dual ROSA units, and one solo ROSA.

This deployment is the inaugural large-scale RAD Light My Way deployment, with the hospital staff choosing RAD Light My Way over an additional armed guard.

RAD Light My Way is a safety feature that provides peace of mind to staff members by illuminating their path while walking to and from their cars at night. The deployment is part of the company's mission to provide safety and security to healthcare workers.

ROBOT DOGS TAKE STAGE AT THIS YEARS SUPERBOWL!

Singer Jason Derulo made headlines by incorporating robot dogs into his performance. The robot dogs were equipped with lights and cameras and danced alongside Derulo during his performance. The use of robot dogs in the performance showcased the potential of technology in the entertainment industry.

RADD OG testing with larger crowds. Object avoidance working very well and as you can tell the mall goers love our little friend! [\\$AITX](#)

RADD OG takes the spotlight at local mall!

The recent EON: Revelation tournament held at the Palisades Mall was a big success for AITX and their latest security solution, the RADD OG. Mall-goers were thrilled to see the cutting-edge security device in action, and many took photos and selfies with it.

The dog was a popular attraction at the event, drawing crowds of people who were excited to learn more about the technology and how it can improve safety and security in public places. AITX representatives were present at the event to answer questions about the RADD OG as well as the company's other products and services, and they received a lot of positive feedback from attendees.

Many of those who saw the RADD OG in action were impressed by its versatility and capabilities. The RADD OG's ability to perform a wide range of tasks, including video surveillance and analytics, virtual barriers, and inventory security, makes it a valuable tool for businesses and organizations of all sizes.
