## RAD HEADS TO ISC WEST 2023

ISC West is one of the largest security industry trade shows in the United States, where the latest in security technology and innovations are showcased to professionals in the industry.

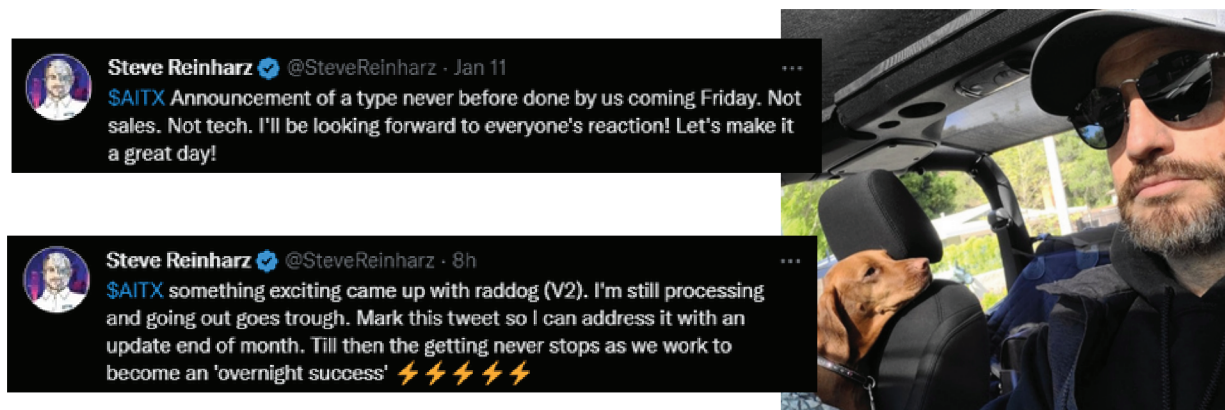

The inclusion of RAD at ISC West is a significant development for the security industry. It highlights the growing trend of using robotics and AI technology to enhance security systems and improve overall protection.

RAD's solutions are a prime example of this, as they offer a unique and effective way to enhance security. They can also be programmed to work in conjunction with other security systems, such as alarms and cameras, to provide a comprehensive and integrated security solution.

## DRONE DEFIBRILLATOR SAVES PATIENT IN FIRST USE.

A 71-year-old man in Sweden is alive after a drone flew in a defibrillator to his home in 3 minutes, allowing a nearby doctor to revive him before the ambulance arrived. The drone service, developed by Everdrone, is designed to quickly deliver help to those experiencing cardiac arrest. The pilot study showed a successful delivery rate of 11 out of 12 cases

## New things on the horizon? Steve hints at announcement

According to recent tweets from AITX CEO Steve Reinharz, the company is working on an exciting new development for their RADdog (V2) product. Reinharz stated that he is currently processing the new development and that more information will be provided at the end of the month. He also emphasized that the team is working hard to become an "overnight success."

In addition, Reinharz teased an upcoming announcement that is unlike anything the company has done before. He stated that it is not related to sales or technology and that he is looking forward to the public's reaction. The announcement is set to be made on Friday.

Stay tuned for more information on the new RADdog (V2) development and the surprise announcement coming this Friday.

The information contained in this publication of RAD WEEKLY ("RAD") does not constitute an offer to sell or a solicitation of an offer to buy the securities of Artificial Intelligence Technology Solutions, Inc.
