## AITX SALES UPDATE

According to the company, it expects to book over 300 units on order before the fiscal year ends on February 28, 2023. This is a significant increase of 60 percent over the previous fiscal year, where RAD had an intake of 187 device orders.

One of RAD's largest clients, GXO, the world's largest pure-play contract logistics provider, recently expanded its partnership with AITX and RAD by ordering 4 RIOs and 1 AVA in just 13 days.

The company's solutions are specifically designed to provide a cost savings to businesses of between 35%-80% when compared to the industry's existing and costly manned security guarding and monitoring model.

We're busy closing, producing, and deploying these orders, ~ Steve Reinharz

## ALPHABET'S EVERYDAY ROBOTS SHUTS DOWN

Alphabet subsidiary Everyday Robots, will be shutting down as part of budget cuts spreading across Google's parent company. The robotics venture is the latest failed bet for Alphabet's X moonshot lab, which previously spun out internet-beaming balloons (Loon) and power-generating kites (Makani) before deeming them too commercially unviable.

## AITX and RAD Prepare for ISC West 2023 CEO Steve Reinharz Gives a Sneak Peek

As ISC West 2023 approaches, the companies are preparing to showcase their latest offerings with a brand new booth and graphics that highlight their new logo and branding.

The new booth is designed to be eye-catching and engaging, with interactive displays that allow visitors to experience the latest technologies in action. AITX and RAD are also planning to showcase their newest products, which incorporate cutting-edge AI and robotics technologies to provide advanced security and surveillance capabilities.

The new booth will feature dedicated areas where visitors can meet with company representatives to learn more about the products and services, ask questions, and get personalized demonstrations. With their new booth and branding, they are poised to make a strong impression at the trade show and demonstrate their continued leadership in the field.
