Multiple Dual  
RAD ROSAs

Multiple ROSA-P  
Configurations

## RAD HOSPITAL GROUP DEPLOYMENT COMPLETE!

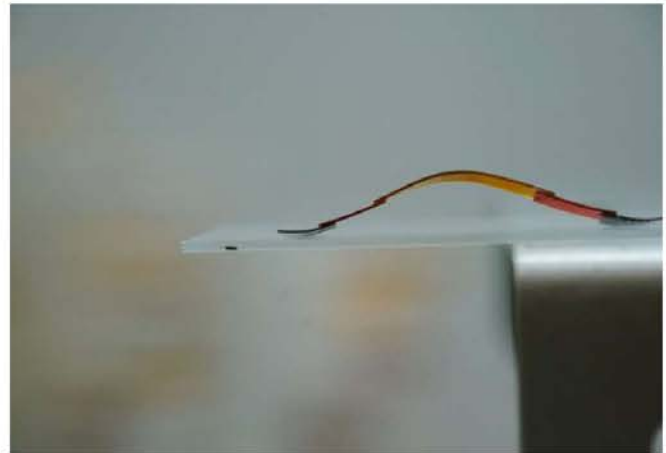

AITX and its subsidiary, Robotic Assistance Devices (RAD), have announced the successful deployment of multiple security robots at a regional hospital group.

The deployment includes eight ROSA security robots, configured as dual-unit ROSA-P devices, and one standard ROSA.

The RAD Light My Way platform, which uses existing light poles as a primary power source, was a critical feature of the deployment. This unique solution was based on the idea of providing essential workers with much-needed peace of mind while improving security. The deployment will enroll thousands of hospital staff and is RAD's largest deployment to date.

the most meaningful and personally satisfying of our hundreds of deployments.

## Deployment at Regional Hospital Group

## GEIWBOT: A TINY CLIMBING ROBOT INSPIRED BY NATURE

The tiny robot, dubbed GeiwBot, was developed by engineers at the University of Waterloo<sup>1</sup>. It uses ultraviolet (UV) light and magnetic force to move on any surface, even up walls and ceilings<sup>2</sup>. It is made from a smart material that can change shape when exposed to light or heat<sup>3</sup>. It mimics the gripping ability of geckos and the locomotion of inchworms.

## Signs New Dealer

### Robotic Assistance Devices Signs DK Security as New Dealer

Robotic Assistance Devices (RAD) has announced DK Security as its new authorized dealer.

DK Security is a Michigan-based full-service security firm with over 400 clients and 1,900 employees, offering a range of services, including investigations, loss prevention, and mobile patrols. As the largest security guard company in Michigan by revenue, DK Security's partnership with RAD will bring the company's autonomous security devices to more clients.

RAD President Mark Folmer praised DK Security's understanding of their clients' security concerns, adding that their dealers play a critical role in navigating solutions for their clients. DK Security's Director of Marketing and Business Development, Johnny Kendall, stated that the partnership with RAD, an industry leader in artificial intelligence, will provide a game-changing solution for clients.
