## RAD Enters the Large Outdoor Event and Venue Marketplace With RIO Deployment

### SUN-POWERED SECURITY HITS THE RIGHT NOTE

In our latest endeavor, we've extended our innovative security solutions to the event management industry, beginning deployment of our solar-powered security trailer, RIO, at the Gulf Coast Jam music festival in Panama City Beach, Florida from June 1-4, 2023.

This marks our inaugural entry into the vibrant, dynamic sector of outdoor events. RIO, acclaimed for its rapid and efficient deployment capabilities, joins the security team of DSI Security Services, one of our top authorized dealers.

Embracing sustainability, RIO utilizes solar power to address power scarcity challenges at outdoor events, marking a significant stride towards greener, more eco-friendly security solutions.

These temporary and portable events are a great market opportunity ~ Steve Reinharz

## TRUMPED-UP BUCKS: AI FACILITATES SCAM

Scams promoting a non-existent "Trump Bucks" currency were shuttered after exploiting supporters of the former president. Using advanced AI-generated narrations and falsified celebrity endorsements, these scams lured victims to invest thousands of dollars in a supposedly future valuable tender. Colorado-based companies behind the scams have not yet faced any criminal complaints.

## Security Revolution 'AVA-lanche': Expansions & Pilots

We're thrilled to announce an expansion order for four AVA autonomous security robots from a top global distribution company, reinforcing our successful partnership.

Additionally, we're nearing completion of two significant pilot programs with a large retailer and a prominent shipping company, expecting substantial deployments on their success. Our advanced, cost-effective solutions not only meet, but exceed client expectations, converting skeptics into advocates.

The ordered AVA units are expected to be deployed later this summer, marking another stride in our quest to revolutionize security.
