SURGE IN SALES SIGNALS NATIONAL EXPANSION

We're proud to announce an impressive surge in sales this month, with six orders totaling 51 security solutions received from one of our largest authorized dealers.

These orders consist of 39 ROSAs, 11 AVAs, and 1 SCOT. This dealer, a leading provider of RAD's devices since 2018, has signaled a major ramp-up in activity, with CEO Steve Reinharz expressing excitement for a proposed national expansion.

The end-user client base spans major retailers, manufacturing centers, and commercial properties. Mark Folmer, President of RAD, credits our dedicated dealer channel and sales team for this momentum, and we look forward to fulfilling these orders later this summer.

Together, we're actively planning a major national expansion. I anticipate amazing results from this relationship ~ Steve Reinharz

AMAZON'S ROBOTIC FLEET EXPANDS

Amazon's newest robotic fleet member, Sparrow, has been training in a real-world pilot program in Texas, aiding in handling a wide variety of products with its seven-actuator robotic arm. While the robot has difficulties picking up certain items, it's making strides in its learning process, reducing its defect rate by 65%. Amazon plans to expand the deployment of Sparrow this fall, citing its successful progress in learning to pick and handle items. Sparrow is set to enhance warehouse operations, boost productivity, and potentially lead to job creation within Amazon.

Police Day Unleashes Robotic Reinforcements: RADDOG LE

AITX and its subsidiary RAD are hosting a 'Police Day' on July 13, 2023, at our 'REX' manufacturing facility in Ferndale, Michigan. The event will showcase the RADDOG family of robots to law enforcement and first responder personnel.

We'll be taking pre-orders for the RADDOG 2LE, specifically designed for law enforcement applications, boasting advanced quadruped design and external accessories for challenging terrains and hazardous environments. Also, the more affordable RADDOG 1LE will be introduced.

We invite Detroit area law enforcement agencies and first responders to attend. The event will offer an opportunity to review RADDOG's capabilities, features, and costs, and place initial orders.

Important note!

RAD's Police Day is July 13th, 2023! Content inbound!
