Update on August 2023

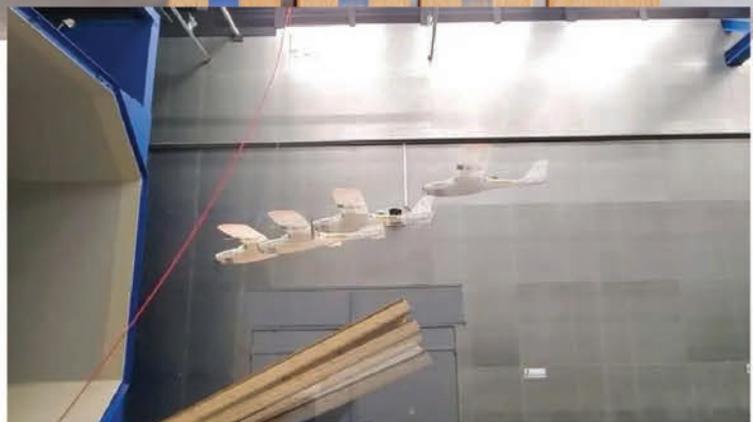

AUGUST ORDERS: RAD-IANT RISE IN SALES!

August is proving to be a monumental month for RAD. On the horizon, we anticipate our most successful order intake ever, with projections pointing to over 100 units by month's end.

So far, we've confirmed 18 unit bookings. Our achievement roster includes a remarkable order for 10 RIO™ 360 solar-powered towers. Further fueling our optimism, a renowned global retailer is considering expanding their RAD ensemble with an extra 68 ROSA units. In academia, a distinguished East Coast university that recently incorporated 10 ROSAs for RAD Light My Way™ is contemplating adding another five units to its arsenal.

Our CEO, Steve Reinharz, remains upbeat about sharing uplifting Q2 figures shortly. As we continuously strive towards a cash flow positive stance, this month's achievements reiterate the sheer dedication and prowess of our team.

We started the month of August having just closed our best month ever! ~ Mark Folmer

ROBOT RIDES THE BREEZE, BARELY BUZZING!

An autonomous flying robot, designed to mimic birds, can hover in place using minimal energy, utilizing its throttle just 0.25% of the time.

This efficiency is achieved by floating on wind gusts, allowing it to use 150 times less power compared to when in propelled flight. The robot can also automatically adjust its position based on wind direction, optimizing its ability to remain airborne.

This technology could revolutionize surveillance tasks, allowing extended monitoring of a specific location.

FOX Morning Show in Philadelphia Hosts Rave over RADDOG Spotlight!

*When our very own Steve Reinharz and RAD's latest innovation Rad Dog, graced the Fox WTFX screen, the excitement was palpable. The hosts' reactions—ranging from astonishment to playful banter—highlighted not only Rad Dog's appeal but also AITX's prowess in innovation. This spotlight on prime-time television doesn't just mark a significant milestone for us at AITX and RAD; it emphasizes our leadership in the AI tech space.

Being featured on such a platform demonstrates our growing influence in the industry. With Rad Dog capturing the hearts of "Stars on Mars" viewers and Fox WTFX hosts alike, AITX is undoubtedly gaining traction in public consciousness. For our investors, this surge in recognition signifies growing trust and enthusiasm around our products and vision. This is the moment to witness AITX's and RAD's transformative impact in technology.

Investors, get ready; the future is RAD, and it's here!
